

Preserve the Credit Union Tax Exemption

Protecting Military Families. Protecting 140+ Million Americans.

The credit union tax exemption reflects credit unions' not-for-profit, member-owned structure and enables direct financial benefits to consumers. The exemption is not a subsidy. It is recognition of a distinct, member-owned structure that returns earnings directly to consumers.

WHY THE TAX STATUS MATTERS

The Tax Status Enables

- Lower loan rates
- Higher savings yields
- Fewer and lower fees
- Financial education and readiness programs
- On-base financial services for military communities
- Access in rural and underserved areas

**\$22
Billion**

Estimated annual
direct financial
benefit to
Americans

WHO IS IMPACTED

**Active-duty
service
members
and veterans**

**140+ million
credit union
member-owners
nationwide**

**Rural and
low-income
communities**

**Taxing credit unions would not target institutions,
it would impact their members.**
